EDUCATION

Graduate School of Design, Harvard University, Cambridge, Massachusetts

Master of Design Engineering, Expected Graduation May 2027

Areas of Focus: Agentic AI tools & research, RAG, Human-Computer Interaction, Data Visualization, Product Design, Systems Mapping, User Experience Design, Digital Archives, Ethics of Technology

Williams College, Williamstown, Massachusetts

Bachelor of Arts, June 2019

Majors: Computer Science and Comparative Literature (Spanish)

Honors/Awards: 2019 Fulbright Fellow, 2018 Comparative Literature Departmental Research Grant

TECHNICAL SKILLS

Agentic AI, LLMs, RAG, Fine-Tuning, JavaScript, React, Python, Java, C, C++, Scala, R, HTML/CSS, Shopify Liquid, WordPress, Webflow, Docker, Node.js, Git, Figma, Adobe Suite, Microsoft Office, LaTeX

Fluent in Spanish

EXPERIENCE

Technical Design Research, Harvard University (November 2025 – Present)

Agentic AI and Human-Computer Interaction Research; Digital Product Design

- [Student Leader in AI](#) at the Berkman Klein Center for Internet and Society
- Researcher at Harvard metaLAB [AI Pedagogy Project](#)
- Design researcher and software engineer for redesign of Harvard Loeb Library Research Guides
- Design consultant for rebrand of Harvard Graduate School of Design FabLab web presence

Founder & Design Engineering Consultant, Hemlock Co, New York, NY (June 2021 – Present)

UX Design, Software Development, Branding, Digital Marketing, e-commerce

- Contributing full stack Design and Engineering Fellow for the Internet Archive's [Open Library](#), performed ethnographic research for users in education, designed and implemented new pages
- Co-founded and led technical product development for [Hemlock Co](#): digital experience design agency focused on e-commerce and creative industries, selected clients listed below
- Product design lead and full stack developer for digital rebrand of [Reliable Diabetes Care](#), end-to-end software development for new website; led team to launch new [CGM Experts](#) shop
- Solo product designer and full stack developer for redesign of [Kimino Drinks](#) e-commerce store
- Lead product designer and developer for fine artists' websites ([Willa Cosinuke](#), [Nora Normile](#))
- UX design lead for Meanwhile Partners ([Nan Xiang Express](#))
- Product design lead and end-to-end developer for [Urban Cowboy Creative Studio](#)

Computer Science Instructor, Horace Mann School, New York, NY (August 2020 – June 2022)

Computer Science and Engineering Department, Upper Division

- Lead instructor covering introductory and advanced computer science topics and languages
- Worked with diverse team to redesign departmental curricula; designed and taught electives covering [software application design](#), theoretical computer science, and AP Computer Science
- Completed faculty SEED Project training, coached FTC Robotics, taught user interface design workshop for 2021 Hack the Bronx virtual Hackathon, advised senior independent study

Fulbright English Teaching Assistant, University of Málaga, Spain (September 2019 – June 2020)

Visiting Assistant in Computer Science/Engineering, Undergraduate and Master's Level

- Prepared and led lessons, workshops, and tutoring sessions to teach university and graduate students software engineering, human-centered design, UX research processes, software ethics, statistics/data analysis, technical writing, and related professional English skills
- Organized and led university students and faculty in providing coding workshops for local middle school students, delivered three workshops before time in Spain cut short by pandemic
- Conducted lessons and office hours sessions remotely from New York with students in Spain during COVID-19 pandemic, designed live and prerecorded video lessons

Williams College Museum of Art, Williamstown, MA (Academic Year 2018 – 19)

Agent for Creative Action

- Planned and led events and programs for visitor engagement including planning installations, designing promotional material, and performing UX research with museum stakeholders

Comparative Lit. Department, Williams College, Williamstown, MA (June 2018 – June 2019)

Archival Research Assistant

- Compiled extensive notes, sources, and images for biography of art collector Archer Milton Huntington, produced two 40-page biographical research packets analyzing selected artworks

Computer Science Department, Williams College, Williamstown, MA (Spring Semester 2018)

TA for Computer Science 134 B: Digital Communication and Computation

- Led help sessions for labs and exams; tested and reviewed code submissions, assigned grades

Algora.io, Remote (Williams College Winter Study, January 2018)

Full Stack Software Development; Python, Jinja2, HTML, CSS, JavaScript

- Full stack software engineering and design intern for [engineering crowdsourcing platform](#)
- Implemented new pages for user profiles, community message forums, and main feeds using Python and Jinja

iFLYER.tv, Tokyo, Japan (Summer 2017)

Web Design and Social Media

- Designed and published article pages for [Otaquest](#) beta site using HTML/CSS/JavaScript and iFLYER Apex API interface, contributed to [iFLYER](#) web design
- Performed quality assurance tests on various apps and websites, including the Fuji Rock 2017 Music Festival App

Parachute Health, New York, NY (Summer 2016)

Product Research and Quality Assurance

- Ran quality assurance checks on system API, documented errors and testing processes
- Created digital prototypes for Parachute search portal using Java and HTML

EXTRA-CURRICULAR ACTIVITIES & NON-DEGREE COURSES

Community Organizer at Mil Mundos Books Co-Op, distributing essential goods to Brooklyn families

Volunteer ESL Tutor for Paper Airplanes, teaching refugees professional English skills

Backing Pianist for Private Vocal Lessons, Williams College

The City College of New York, New York, NY

Non-Degree Course in Linear Algebra, Summer 2021; Grade: A
